EMPOWERING BUSINESSES IN KENHARDT

A new initiative has been launched to support local businesses in Kenhardt, focusing on compliance to improve their ability to apply for contract work. This assistance came about after engagement with the community, highlighting the critical need for this help among local SMMEs and NGOs.

29 businesses have been assisted to achieve all the necessary compliance. The programme will further support these SMME's to help their businesses thrive and secure vital funding opportunities.

"With my papers in order, I can apply for tenders"
- Collen Dajee, entrepreneur.

SUPPORTING OUR LOCAL YOUTH

Our community bursary fund, geared specifically for Kenhardt youth, is helping to change lives by supporting students' tertiary education goals.

Aubrene Joelin Tities is one of almost 10 beneficiaries receiving assistance to pursue their goals, with Tities' sights set on training to become an Installation Electrician.

"Once qualified, it is my dream to work at Aries Solar Power, gain more experience, and give back. Through this opportunity, I've been able to show my community that there are programmes available to support rural communities like ours in Kenhardt."

CELEBRATING 10 YEARS

With the Northern Cape being home to some of the best solar radiation levels in the world, it has been our mission to capture this environmentally friendly, renewable source of energy for the past decade.

Thank you to every member of our team, both past and present, for their contributions over our last 10 years of operation!

To mark the occasion our team on site enjoyed a day of celebrations.
